Agricultural run-off	F4 Habitats F4 Birds F4 Fish	No impact identified.	<ul style="list-style-type: none"> End of year reporting to ASERA on any significant changes in this activity or its management. Review and update of activity proforma where necessary. 	Nov 2012 Nov 2012	
Educational fieldtrips	F4 Habitats F4 Birds F2 Fish	No impact identified to habitat and bird features. No possible impact to fish features.	<ul style="list-style-type: none"> End of year reporting to ASERA on any significant changes in this activity or its management. Review and update of activity proforma where necessary. 	Nov 2012 Nov 2012	
Plans or Projects (F1 activities) to be considered in an Competent Authority role;					
Activities causing a release of contamination through historic industry	F1	This activity is a Plan or Project and requires a Habitats Regulations Assessment.	<ul style="list-style-type: none"> No action is required under the management scheme, but action may be required as a result of the Habitats Regulations Process. Consult with NE. 	Nov 2012	
Collection of scientific data					
Emergency Planning					
Habitat creation and restoration					
Outfall maintenance					
Pipeline maintenance					
Property and estate maintenance				Nov 2012	

It should be noted, that Natural England and Countryside Council for Wales' assessment of impacts was based on the information provided by relevant authorities. In some instances this information was incomplete and in others there was no information provided at all. In these circumstances the assessment was based on the countryside agencies' best knowledge only. It may be that in light of further information, certain activities in certain locations may be assessed differently.
